Re: **Watco's 2023/2024 CRISI Grant Program Application: "Strategic Bridge Improvement and Sustainability Project"**

Dear Administrator Bose;

On behalf of Pawnee County Cooperative Association, I want to extend my full support for Watco's 2023/2024 CRISI Grant Application - *Strategic Bridge Improvement and Sustainability Project*. This project proposes to complete at least 30% preliminary engineering and design work, including all environmental work, for 116 strategic railroad bridges that traverse waterways across the entire Watco network. These bridges are critical to safe and efficient railroad service to our facility(s).

Our cooperative was established in 1905 in central Kansas where we work diligently to meet the grain, crop production, and energy needs of our patrons. We rely heavily on rail service to transport outbound grain and inbound fertilizer.

Further weight restrictions and/or rail service disruptions due to the condition of the bridge(s) that serve our facility(s) would severely impact the economics of our business model and would result in more truck traffic navigating local roads through business, commercial and residential areas to reach our plant. I understand Watco is applying for a federal CRISI grant of \$15.2M and will be providing a local match of \$3.8M if awarded. I applaud Watco for taking this big step forward in trying to address its' infrastructure challenges today and in the future.

Pawnee County Cooperative Association supports modern infrastructure that helps our economy grow and enhances the safety of the communities we call home, and certainly supports this CRISI grant application.

Respectfully,

Dennis Penewit

Pawnee County Cooperative Association
