The Honorable Amit Bose, Administrator
Federal Railroad Administration
1200 New Jersey Avenue, SE
Washington, DC 20590

Re: **Watco's 2023/2024 CRISI Grant Program Application: "Strategic Bridge Improvement and Sustainability Project"**

Dear Administrator Bose:

On behalf of WestRock, I want to extend my full support for Watco's 2023/2024 CRISI Grant Application - *Strategic Bridge Improvement and Sustainability Project*. This project proposes to complete at least 30% preliminary engineering and design work, including all environmental work, for 116 strategic railroad bridges that traverse waterways across the entire Watco network. These bridges are critical to safe and efficient railroad service to our Twin Falls, ID facility.

WestRock is a leading provider of sustainable, fiber-based packaging solutions, with a global team of 58,000 members and a vast network of over 300 production facilities worldwide. Our expertise in materials science, packaging design, and manufacturing drives innovation in packaging technology. Collaborating as One WestRock, we partner with customers to advance their business and sustainability goals, shaping a more circular economy.

Further weight restrictions and/or rail service disruptions due to the condition of the bridge(s) that serve our facility(s) would severely impact the economics of our business model and would result in more truck traffic navigating local roads through business, commercial and residential areas to reach our plant. I understand Watco is applying for a federal CRISI grant of \$15.2M and will be providing a local match of \$3.8M if awarded. I applaud Watco for taking this big step forward in trying to address its' infrastructure challenges today and in the future.

WestRock supports modern infrastructure that helps our economy grow and enhances the safety of the communities we call home, and certainly supports this CRISI grant application.

Respectfully,
